Highlights

- **Smart Garage Capabilities**
Integrated Wi-Fi provides multiple benefits such as:
 - **Security** – Instantly know if someone is operating your garage door without permission.
 - **Convenience** – Open your door for family members, deliveries or service providers from anywhere with your smart device.
 - **Safety** – Have garage door automatically close at a specific time or after an elapsed time period in case it's left open.
- **Durable, reliable performance** – The strong DC motor operates most properly balanced residential sectional doors up to 10' high. Model 3120HL has an opening speed of 7.0" per second*.
- **Integrated LED Lighting** – Integrated LED lighting system provides bright, long-lasting, energy-efficient illumination designed to eliminate garage door opener remote interference
- **Battery Backup Capable (Model 3120HL-B)** – Don't get locked outside the garage when the power goes out! The optional battery unit can easily be added to your opener.
- **GenieSense™ Monitoring** – Automatic force profiling and diagnostic technology improves safety by stopping operation when significant changes occur.
- **Soft Start and Stop Control** – DC technology allows your door to begin and end its movement smoothly instead of abruptly whenever you operate it, creating less noise and less wear on the door.
- **Dependability** – The quality built into a Model 3120HL is backed by Limited Lifetime motor and Limited 15-Year belt drive rail Warranties[§] (5-Year chain drive rail).

THE GENIE STORY: Genie has a rich history in developing garage door openers that feature reliability, strength, safety, security, and convenience. Since 1954, Genie has produced millions of openers that serve millions of satisfied homeowners every day of every year. Shouldn't you have one in your garage? Genie — The Brand You Trust.

* +/- 0.5" per second for sectional doors.
** When compared to industry standard, 12V motors
§ Limited non-transferable warranty. See Programming, Operation and Maintenance manual for details.

Model 3120HL/3120HL-B Connected Pro Series

Standard Equipment and Warranty

Features and Benefits

POWER AND CONTROL

DC Motor Smart Technology – The DC motor provides quiet operation as well as Soft Start and Stop control. This means the door begins and ends its travel smoothly, not abruptly, which lessens noise as well as wear and tear on the garage door.

C-Channel Rail – Strong rail design helps promote durability and safety. Also conceals the belt (or chain) for better appearance.

Belt or Chain Drive – Choose the belt drive option for quieter operation or chain drive for economical value.

SAFETY

Safe-T-Beam® Non-Contact Reversing System – When objects pass through the infrared beam, the garage door automatically stops closing and reverses to open without having to make physical contact with the door.

SECURITY

Intellicode® Access Security System – Prevents thieves from using unauthorized remotes to open your door by always selecting a new code from billions of combinations each time the opener is operated.

Sure-Lock™ Control – Allows you to lock out remote controls and wireless keypad at any time for increased security – also known as a vacation lock.

CONVENIENCE

Integrated LED Lighting – High-efficiency, integrated LED lighting is frequency tuned not to interfere with transmitter range and provides bright, aesthetically pleasing light. Integrated lighting is designed for thousands of hours of maintenance-free use.

Auto-Seek Dual Frequency – The opener automatically uses either 315 or 390 MHz frequency to avoid potential nearby interference, such as military base equipment, to help ensure the opener operates properly.

Pre-Programmed Remote – Ready to use out-of-the-box with simple steps to change the programming if so desired.

HomeLink® and Car2U® Compatible – Works with current and ALL previous versions of HomeLink® or Car2U®. No additional external repeater kit or compatibility bridge needed.

6' Power Cord – For high ceiling applications.

Shown with optional battery backup (3120HL-B)

Aladdin Connect® INTEGRATED Wi-Fi CONNECTIVITY

Remotely monitor and control your garage door from almost anywhere with your smart device. Time-based features allow you to set door to automatically close and/or notify after a set length of time; as well as schedule a specific hour and minute to close the door and/or notify when it does. Also allows for multiple individual user accounts so you can provide virtual key access for your garage door to a friend, relative, or service person for a certain time, a range of time, or permanently.

Use the Aladdin Connect app to control any combination of 20 different Genie Wi-Fi integrated garage door openers or standalone Aladdin Connect Door Control Modules.

Compatible with:

Convenience Options

Wireless Keypad

Easy-to-program keypad mounts outside your door to give you convenient code access to your garage, which is great when you are outside without the remote control. Back-lit keypad lets you easily see the numbers and control up to 3 openers.

Uses Auto-Seek Dual Frequency (315/390 MHz).

Choose a color for the flip-up cover that best complements your home. White is standard, other colors sold separately.

Battery Backup (Model 3120HL-B)

Add this option and if the power goes out, Genie battery backup power goes on so you don't have to manually open and close the garage door!

1-Button Remote

Simple yet versatile one-button remote features auto-seek dual frequency. Can be used on a keychain or as a traditional visor style remote. Backward compatible with all Intellicode® equipped Genie garage door openers.

Wireless Wall Console

An attractive wall console that's completely wireless for flexible placement in the garage. Features an optional pulsing back-light as well as delay button that gives ample time (up to 30 seconds) to exit the garage before the door begins moving. The work light button can turn just the opener's light on at any time. Compatible with most Genie Intellicode® openers made since 2013.

Heavy-Duty Rail

Heavy-duty design prevents rail deflection ensuring smooth movement on taller garage doors. The rail rigidity can also improve the aesthetics of door travel itself.

YOUR GENIE PROFESSIONAL DEALER:

CALIFORNIA RESIDENTS – This opener has the option to add battery backup. As required by SB-969, all newly installed openers must have battery backup as of 7/1/19. To order this opener with battery backup, refer to Model 3120HL-B. If needed, visit www.geniecompany.com or ask your Genie dealer for details.

† Limited non-transferable warranty. See Programming, Operation and Maintenance manual for details.
